However, stopping to cause a yellow will force that driver to tag the tail of the field as a case of the caution.

2.4: Any car that does not race on the designated racing surface in order to better its position will be penalized at the discretion of the race director.

2.5: Cars will not be allowed to reenter the racing surface when the yellow light goes out. An offending car will be automatically DQ'd.

2.9: Any car that cannot maintain a minimum race speed may be black flagged for safety reasons.

2.10: All races will be complete once the leader crosses the finish line at the assigned number of laps. Any race with a yellow or red during the white flag will result in the race restarting as a green-white-checkered. There will only be one attempt at a G, W, C finish.
